Mega Project

Team 2

Report 5

Progress:

- Youssef Saeed (Stitching and Object Detection – overall GUI):
  - Stitching and object detection is done with its GUI
  - Started working on the overall GUI

- Heidi (Hardware – Hand Detection):
  - Completed PCB layout (sticker still needs to be prepared).
  - Completed the code for finger counting but still needs to be linked with servo.

- Youssef Fayed (Mapping):
  - Finished the arduino code for motor speed.

We discussed tomorrow's tasks as follows:

We will meet tomorrow at 11 am to fabricate our PCB and complete any missing work, document our work, and get the technical report done.
